

**Dear Parent/Carers,**

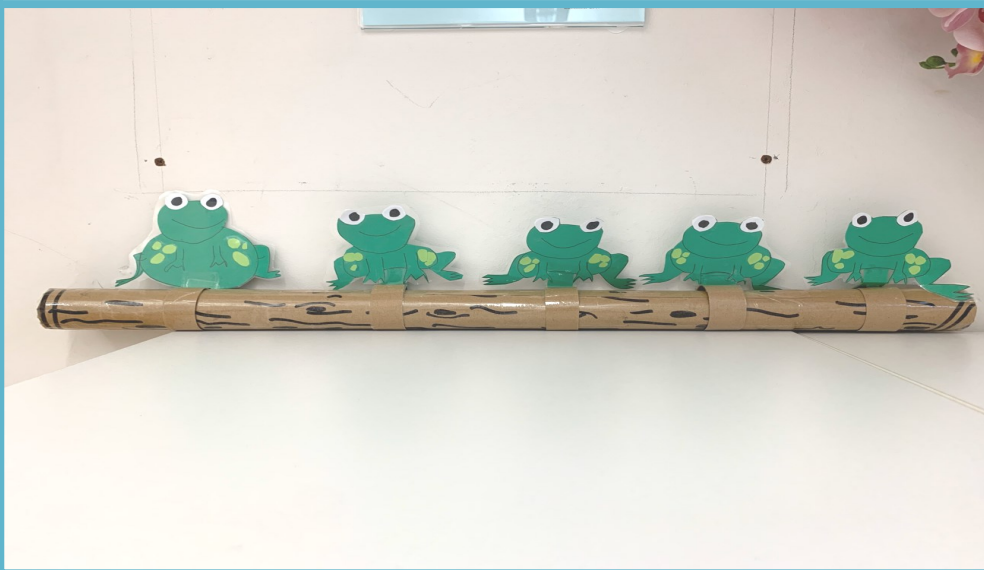

Earlier this term we announced our first 'Feryal's Crafting' Challenge.

We thank the families that have already made some fantastic entries however, we still do not have enough and we would like more to show to Feryal's family when we invite them into school.

If you are stuck for ideas, please see a creation that one of our families have made below:

'Five little speckled frogs'- To prompt numbers and backwards counting

On the second page we have included some photos of resources Feryal herself made for you to see and draw inspiration from.

If you are not so crafty and would like to make something else in memory of Feryal, we would be very grateful to receive these also. Please bring your entries to reception by **Friday 28th April.**

Yours sincerely,

Ian Scotchbrook

Below are some of Feryal's creations as well as core books which you can use for inspiration to create your own. Is there a song that was or is sung to you that involved counting ,animals or items or colours? Use these to help you get creating!

**Five currant buns in the baker shop**– Game designed to prompt math's and singing

**Washing line game**– To encourage number recognition and ordering number to 10

**Munchie monsters**– To prompt fine motor development

**5 little pumpkins**– To prompt counting and number recognition
