Dear Parents/Carers,

Headlice and nits

Headlice and nits continue to be a reoccurring problem at the moment. This can be very frustrating and difficult for families.

We urge all parents to carry out weekly checks, follow the NHS guidelines for treatment (see link below), and where cases of headlice treatment are unsuccessful, seek the advice of a pharmacist who can advise on any further treatment that may be necessary.

Link to NHS guidelines: <https://www.nhs.uk/conditions/head-lice-and-nits/>

If your child has headlice, they should continue to come to school and treatment should start promptly.

We kindly ask that you inform us if your child has nits, so we can notify other parents and help prevent further spread.

I thank you in advance for your support and cooperation in this matter.

Your sincerely,

A handwritten signature in cursive script that reads "Ayse Thomas".

Ayse Thomas
Deputy Headteacher
